## J-Tech Systems partners with StePac

Australian company to supply StePac's range of market-leading packaging solutions

**I**srael-based packaging specialist StePac has appointed J-Tech Systems as its new supplier for the Australian market.

J-Tech will carry StePac's full range of modified atmosphere, modified humidity and condensation control packaging solutions.

"We've got a great range of products from StePac," said J-Tech Systems' packaging sales manager, Mitchell Pursehouse.

"The range has everything from carton liners, bin liners and pallet shrouds, products for bulk automated

packaging as well as retail packaging formats like bags, flow packs, lidding film and pouches.

"With this range, we have got solutions to fit almost any need that growers, packers, exporters or retailers come across and there's huge benefits for everyone with keeping produce fresh and reducing food waste."

Pursehouse said the partnership would complement J-Tech's existing range of packaging and post-harvest solutions for the fresh produce industry.

"J-Tech Systems is all about delivering the best solutions and the latest product innovations into

our marketplace," said Pursehouse. "With these products from StePac we're delivering another great solution and choice for the Australian fresh produce industry."

StePac was [acquired by Israeli private equity fund Nili Capital Partners](#) late last year (2020).
