FPC launches contactless delivery platform

Free service Onyourdoorstep allows fruit and veg suppliers to connect directly with consumers in their local area

The Fresh Produce Consortium has launched a new online platform to connect fruit and vegetable suppliers directly with consumers.

Onyourdoorstep is a free-to-use service whereby fresh produce suppliers can register their business and list which produce they have available. Local consumers can then connect

directly with them to arrange contactless delivery.

The scheme is open for businesses at www.onyourdoorstep.shop, where they can register their details on the 'Become a Supplier' section. It will open for consumers on 1 April.

"We desperately need to support the fresh produce supply chain and keep

it moving during these challenging times," said FPC chief executive Nigel Jenney. "We are encouraging local suppliers across the UK to sign up and take advantage of this valuable free service where we can connect them with local customers."
